Chapter 2

Hierarchical Index

2.1 Class Hierarchy

This inheritance list is sorted roughly, but not completely, alphabetically:

cell	
Land	33
Cell	13
Facility	25
LinkedList< Type >	34
livingThings	
Player	39
LivingThings	34
FarmAnimal	26
Eggproducing	24
ayam	7
bebek	11
Meatproducing	35
ayam	7
babi	9
bebek	11
domba	19
kambing	31
sapi	44
Milkproducing	36
kambing	31
sapi	44
node< Type >	38
Product	41
FarmProduct	27
ChickenEgg	14
ChickenMeat	15
CowMeat	17
CowMilk	18
DuckEgg	21
DuckMeat	22
GoatMeat	28
GoatMeat	28
GoatMilk	30

Pork	40
SideProduct	46
BBQ	10
Omelette	38
Sausage	45
Renderable	43

Chapter 3

Class Index

3.1 Class List

Here are the classes, structs, unions and interfaces with brief descriptions:

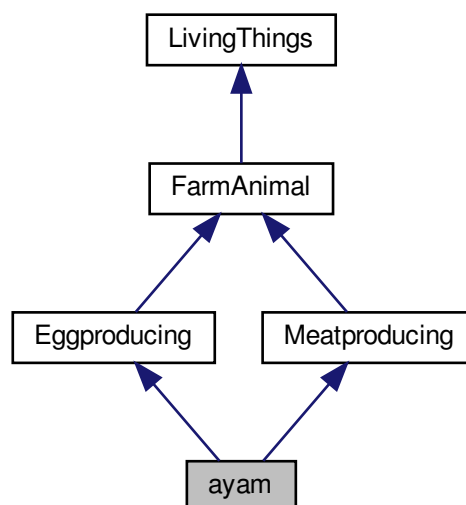

ayam	7
babi	9
BBQ	10
bebek	11
Cell	13
ChickenEgg	14
ChickenMeat	15
CowMeat	17
CowMilk	18
domba	19
DuckEgg	21
DuckMeat	22
Eggproducing	24
Facility	25
FarmAnimal	26
FarmProduct	27
GoatMeat	28
GoatMilk	30
kambing	31
Land	33
LinkedList< Type >	34
LivingThings	34
Meatproducing	35
Milkproducing	36
node< Type >	38
Omelette	38
Player	39
Pork	40
Product	41
Renderable	43
sapi	44
Sausage	45
SideProduct	46

Chapter 4

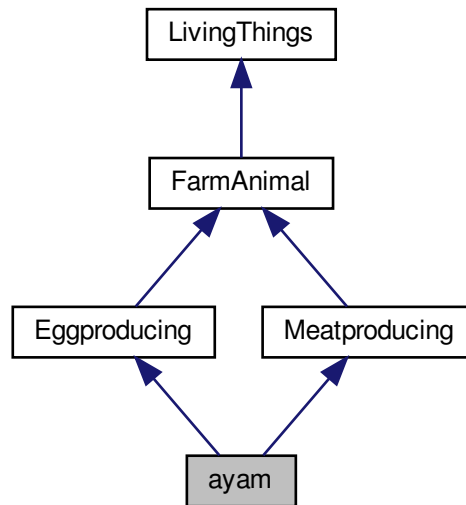

Class Documentation

4.1 ayam Class Reference

Inheritance diagram for ayam:

Collaboration diagram for ayam:

Public Member Functions

- **ayam** (int posX, int posY)
- **~ayam** ()
constructor
- void **move** ()
destructor
- void **talk** ()
- void **eat** ()
- string **getProduct** ()
- int **getcountTelurA** () const
- int **getFull** ()
menghitung jumlah telur yang dihasilkan
- void **setFull** (int Full)
getter

Additional Inherited Members

The documentation for this class was generated from the following file:

- ayam.h

4.2 babi Class Reference

```
#include <babi.h>
```

Inheritance diagram for babi:

Collaboration diagram for babi:

Public Member Functions

- **babi** (int posX, int posY)
- void **move** ()
- void **talk** ()
- void **eat** ()
- string **getProduct** ()
- int **getcountPork** () const
- int **getFull** ()
- void **setFull** (int Full)

Additional Inherited Members

4.2.1 Detailed Description

babi class. Class babi ,turunan meat producing

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- babi.h

4.3 BBQ Class Reference

```
#include <BBQ.h>
```

Inheritance diagram for BBQ:

Collaboration diagram for BBQ:

Additional Inherited Members

4.3.1 Detailed Description

[BBQ](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

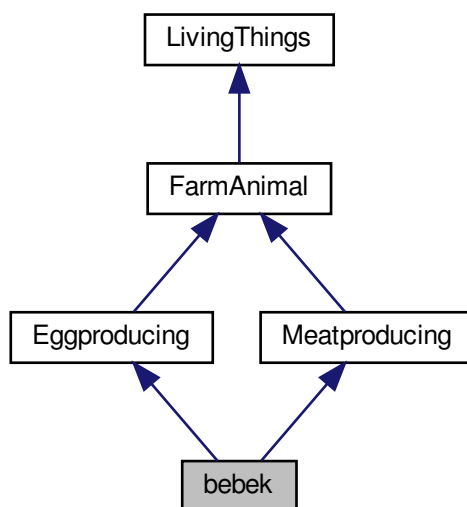

The documentation for this class was generated from the following file:

- BBQ.h

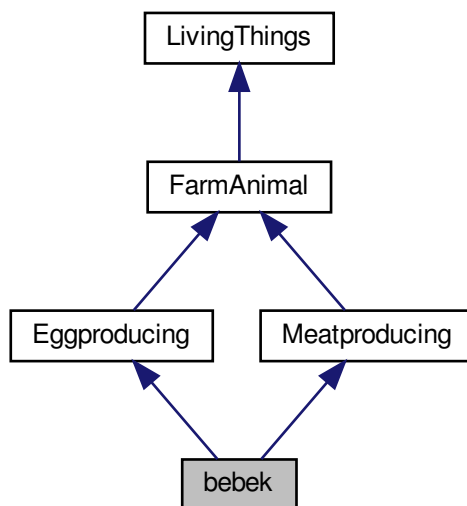

4.4 bebek Class Reference

```
#include <bebek.h>
```

Inheritance diagram for bebek:

Collaboration diagram for bebek:

Public Member Functions

- **bebek** (int posX, int posY)

- void **move** (int posX, int posY)
- void **talk** ()
- void **eat** ()
- string **getProduct** ()
- int **getcountTelurB** () const
- int **getFull** ()
- void **setFull** (int Full)

Additional Inherited Members

4.4.1 Detailed Description

bebek class. Class bebek ,turunan meat producing

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- bebek.h

4.5 Cell Class Reference

Inheritance diagram for Cell:

Public Member Functions

- void **setSizeX** (int _x)
- void **setSizeY** (int _y)
- int **getSizeX** ()
- int **getSizeY** ()
- int **getElement** (int x, int y)
- string **getProperties** (int value)
- bool **isEmptyCell** (int x, int y)

The documentation for this class was generated from the following file:

- Cell.h

4.6 ChickenEgg Class Reference

```
#include <ChickenEgg.h>
```

Inheritance diagram for ChickenEgg:

Collaboration diagram for ChickenEgg:

Additional Inherited Members

4.6.1 Detailed Description

[ChickenEgg](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- [ChickenEgg.h](#)

4.7 ChickenMeat Class Reference

```
#include <ChickenMeat.h>
```

Inheritance diagram for ChickenMeat:

Collaboration diagram for ChickenMeat:

Additional Inherited Members

4.7.1 Detailed Description

[ChickenMeat](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- ChickenMeat.h

4.8 CowMeat Class Reference

```
#include <CowMeat.h>
```

Inheritance diagram for CowMeat:

Collaboration diagram for CowMeat:

Additional Inherited Members

4.8.1 Detailed Description

[CowMeat](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- CowMeat.h

4.9 CowMilk Class Reference

```
#include <CowMilk.h>
```

Inheritance diagram for CowMilk:

Collaboration diagram for CowMilk:

Additional Inherited Members

4.9.1 Detailed Description

[CowMilk](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- CowMilk.h

4.10 domba Class Reference

```
#include <domba.h>
```

Inheritance diagram for `domba`:

Collaboration diagram for `domba`:

Public Member Functions

- **`domba`** (int posX, int posY)

- void **move** ()
- void **talk** ()
- void **eat** ()
- string **getProduct** ()
- int **getcountlambMeat** () const
- int **getFull** ()
- void **setFull** (int Full)

Additional Inherited Members

4.10.1 Detailed Description

domba class. Class domba ,turunan meat producing

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- domba.h

4.11 DuckEgg Class Reference

```
#include <DuckEgg.h>
```

Inheritance diagram for DuckEgg:

Collaboration diagram for DuckEgg:

Additional Inherited Members

4.11.1 Detailed Description

[DuckEgg](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- DuckEgg.h

4.12 DuckMeat Class Reference

```
#include <DuckMeat.h>
```

Inheritance diagram for DuckMeat:

Collaboration diagram for DuckMeat:

Additional Inherited Members

4.12.1 Detailed Description

[DuckMeat](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

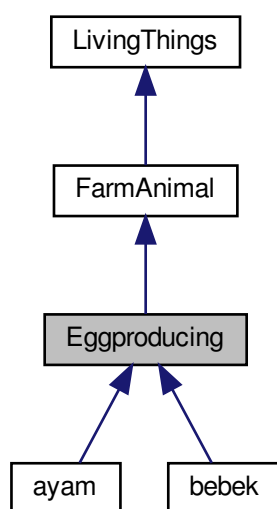

The documentation for this class was generated from the following file:

- DuckMeat.h

4.13 Eggproducing Class Reference

```
#include <Eggproducing.h>
```

Inheritance diagram for Eggproducing:

Collaboration diagram for Eggproducing:

Public Member Functions

- **Eggproducing** (int x, int y)

Static Public Member Functions

- static int **getJlhEggP** ()

Additional Inherited Members

4.13.1 Detailed Description

[Eggproducing](#) class Class hewan penghasil telur ,kelas turunan dari farm animal

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- Eggproducing.h

4.14 Facility Class Reference

Inheritance diagram for Facility:

Collaboration diagram for Facility:

Public Member Functions

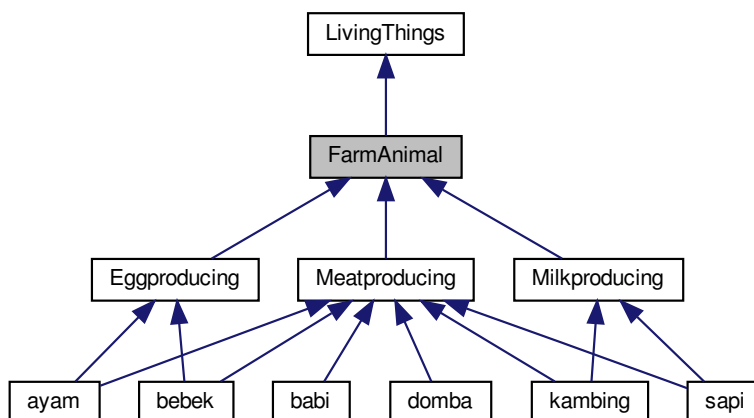

- int **getWellx** ()
- int **getWelly** ()
- int **getMixerx** ()
- int **getMixery** ()
- int **getTruckx** ()
- int **getTrucky** ()

The documentation for this class was generated from the following file:

- Facility.h

4.15 FarmAnimal Class Reference

Inheritance diagram for FarmAnimal:

Collaboration diagram for FarmAnimal:

Public Member Functions

- **FarmAnimal** (int x, int y)
- virtual void **eat** ()=0
- virtual void **Print** ()=0
- virtual void **setFull** (int Full)=0

Static Public Member Functions

- static int **getcountAnimal** ()

Protected Attributes

- int **Full**

The documentation for this class was generated from the following file:

- FarmAnimal.h

4.16 FarmProduct Class Reference

```
#include <FarmProduct.h>
```

Inheritance diagram for FarmProduct:

Collaboration diagram for FarmProduct:

Additional Inherited Members

4.16.1 Detailed Description

[FarmProduct](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- FarmProduct.h

4.17 GoatMeat Class Reference

```
#include <GoatMeat.h>
```

Inheritance diagram for GoatMeat:

Collaboration diagram for GoatMeat:

Additional Inherited Members

4.17.1 Detailed Description

[GoatMeat](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following files:

- GoatMeat.h
- LambMeat.h

4.18 GoatMilk Class Reference

```
#include <GoatMilk.h>
```

Inheritance diagram for GoatMilk:

Collaboration diagram for GoatMilk:

Additional Inherited Members

4.18.1 Detailed Description

[GoatMilk](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

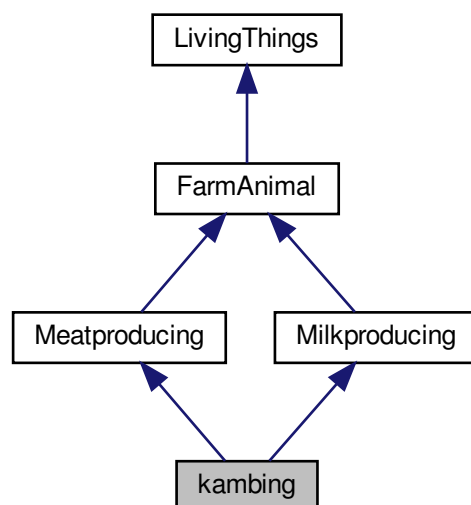

The documentation for this class was generated from the following file:

- GoatMilk.h

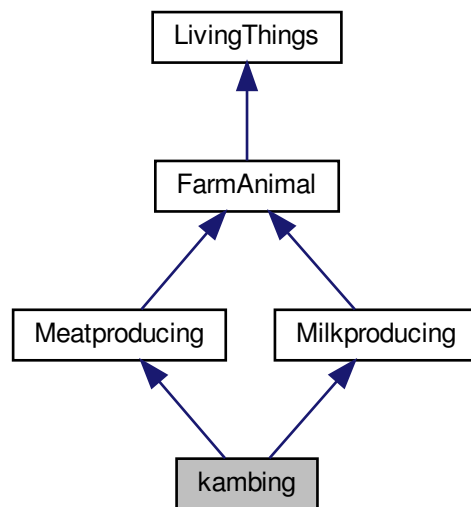

4.19 kambing Class Reference

```
#include <kambing.h>
```

Inheritance diagram for kambing:

Collaboration diagram for kambing:

Public Member Functions

- **kambing** (int posX, int posY)
- void **move** ()
- void **talk** ()
- void **eat** ()
- string **getProduct** ()
- int **getcountcowMilk** () const
- int **getFull** ()
- void **setFull** (int Full)

Additional Inherited Members

4.19.1 Detailed Description

kambing class. Class kambing ,turunan meat producing

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- kambing.h

4.20 Land Class Reference

Inheritance diagram for Land:

Collaboration diagram for Land:

Public Member Functions

- char **getElement** (int x, int y)
- string **getProperties** (char value)
- void **setElement** (int x, int y, char e)

The documentation for this class was generated from the following file:

- Land.h

4.21 LinkedList< Type > Class Template Reference

Public Member Functions

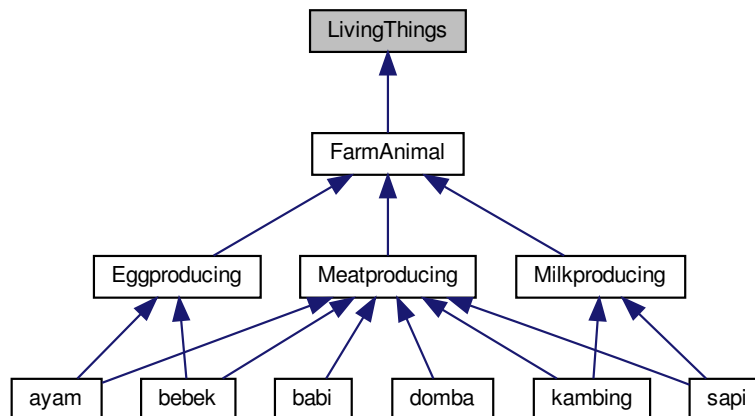

- int **find** (Type element)
- bool **isEmpty** ()
- void **add** (Type element)
- void **remove** (Type element)
- Type **get** (int indeks)
- int **getSize** ()
- void **print** ()

The documentation for this class was generated from the following files:

- LinkedList.h
- LinkedList.cpp

4.22 LivingThings Class Reference

Inheritance diagram for LivingThings:

Public Member Functions

- virtual void **move** ()=0
- virtual void **talk** ()=0

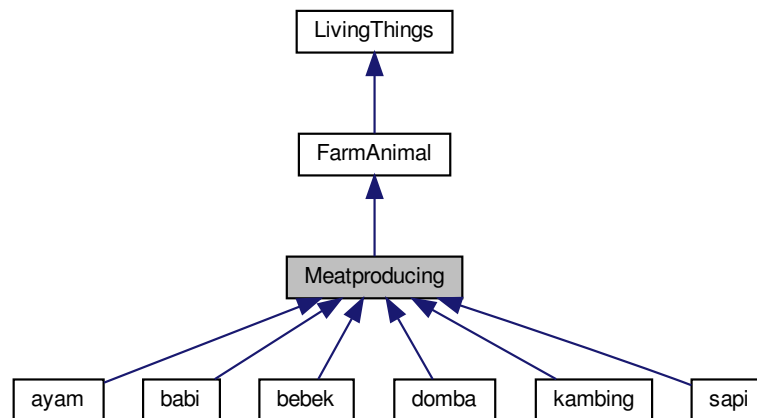

The documentation for this class was generated from the following file:

- LivingThings.h

4.23 Meatproducing Class Reference

```
#include <Meatproducing.h>
```

Inheritance diagram for Meatproducing:

Collaboration diagram for Meatproducing:

Public Member Functions

- **Meatproducing** (int x, int y)

Static Public Member Functions

- static int **getJlhMeatP** ()

Additional Inherited Members

4.23.1 Detailed Description

[Meatproducing](#) class Class hewan penghasil daging, kelas turunan dari farm animal

Author

13517090

Since

2019.03.17

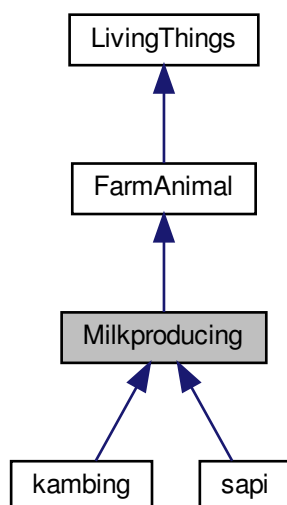

The documentation for this class was generated from the following file:

- Meatproducing.h

4.24 Milkproducing Class Reference

```
#include <Milkproducing.h>
```

Inheritance diagram for Milkproducing:

Collaboration diagram for Milkproducing:

Public Member Functions

- **Milkproducing** (int x, int y)

Static Public Member Functions

- static int **getJlhMilkP** ()

Additional Inherited Members

4.24.1 Detailed Description

[Milkproducing](#) class Class hewan penghasil susu ,kelas turunan dari farm animal

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- Milkproducing.h

4.25 `node< Type >` Struct Template Reference

Public Attributes

- `node< Type > * next`
- Type `data`

The documentation for this struct was generated from the following file:

- `LinkedList.h`

4.26 Omelette Class Reference

```
#include <Omelette.h>
```

Inheritance diagram for Omelette:

Collaboration diagram for Omelette:

Additional Inherited Members

4.26.1 Detailed Description

[Omelette](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- [Omelette.h](#)

4.27 Player Class Reference

Inheritance diagram for Player:

Collaboration diagram for Player:

Public Member Functions

- **Player** (int x, int y)
- Hanya dapat bergerak petak per **pemanggilan** (?) ato enggak */void Move(int posX
- void **Talk** ()
- void **Interact** ()
- void **Kill** ()
- void **Grow** ()

Public Attributes

- Hanya dapat bergerak petak per int **posY**

The documentation for this class was generated from the following file:

- Player.h

4.28 Pork Class Reference

```
#include <Pork.h>
```

Inheritance diagram for Pork:

Collaboration diagram for Pork:

Additional Inherited Members

4.28.1 Detailed Description

[Pork](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

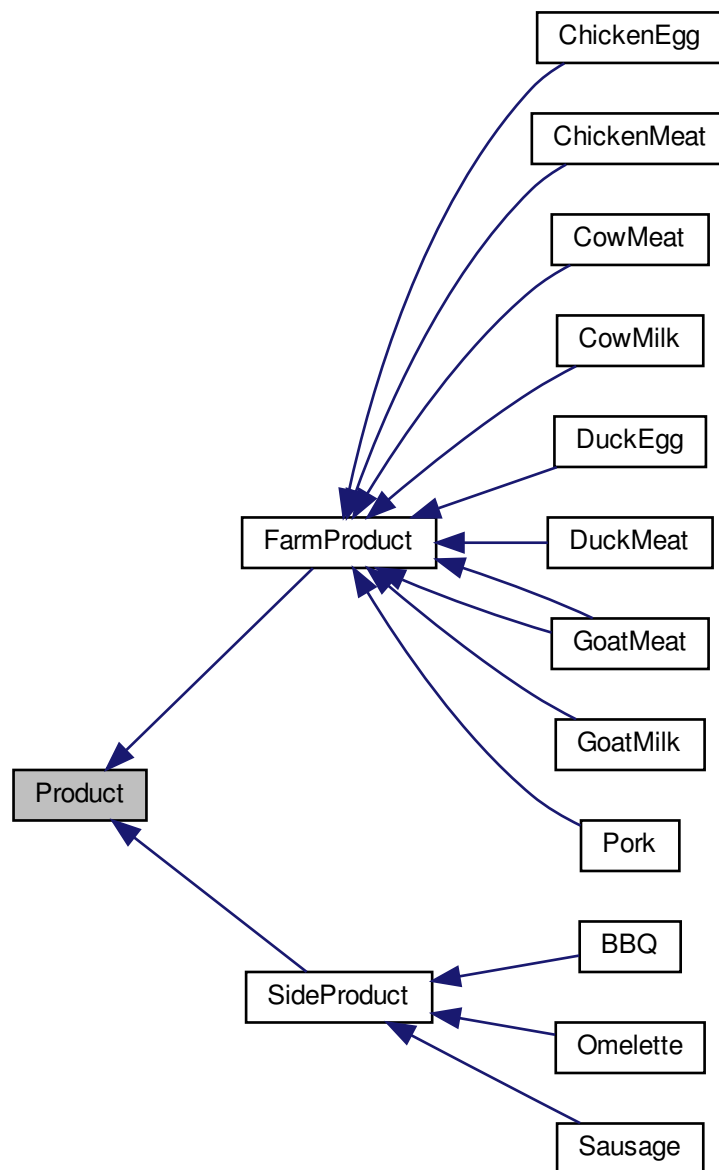

The documentation for this class was generated from the following file:

- `Pork.h`

4.29 Product Class Reference

```
#include <Product.h>
```

Inheritance diagram for Product:

Public Member Functions

- int [getProductValue](#) ()
- int [getExpireValue](#) ()

Public Attributes

- int **expireValue**

4.29.1 Detailed Description

[Product](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

4.29.2 Member Function Documentation

4.29.2.1 `getExpireValue()`

```
int Product::getExpireValue ( )
```

Get the expire value of the product.

Returns

int expire value.

4.29.2.2 `getProductValue()`

```
int Product::getProductValue ( )
```

Get the product value.

Returns

int product value.

The documentation for this class was generated from the following file:

- `Product.h`

4.30 Renderable Class Reference

Public Member Functions

- virtual void **render** ()=0

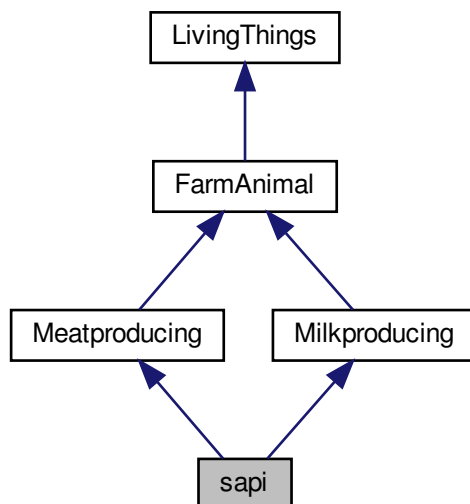

The documentation for this class was generated from the following file:

- `Renderable.h`

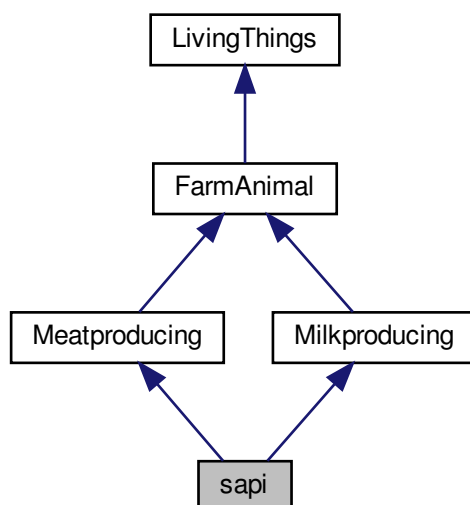

4.31 sapi Class Reference

```
#include <sapi.h>
```

Inheritance diagram for sapi:

Collaboration diagram for sapi:

Public Member Functions

- **sapi** (int posX, int posY)
- void **move** ()
- void **talk** ()
- void **eat** ()
- string **getProduct** ()
- int **getcountcowMilk** () const
- int **getFull** ()
- void **setFull** (int Full)

Additional Inherited Members

4.31.1 Detailed Description

sapi class. Class sapi ,turunan meat producing&milk

Author

13517090

Since

2019.03.17

The documentation for this class was generated from the following file:

- sapi.h

4.32 Sausage Class Reference

```
#include <Sausage.h>
```

Inheritance diagram for Sausage:

Collaboration diagram for Sausage:

Additional Inherited Members

4.32.1 Detailed Description

[Sausage](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

The documentation for this class was generated from the following file:

- Sausage.h

4.33 SideProduct Class Reference

```
#include <SideProduct.h>
```

Inheritance diagram for SideProduct:

Collaboration diagram for SideProduct:

Public Member Functions

- int [getPortion](#) ()

Additional Inherited Members

4.33.1 Detailed Description

[SideProduct](#) class.

Author

Ghazwan S. M. ghazwan.sihamudin@gmail.com

Since

2019.03.17

4.33.2 Member Function Documentation

4.33.2.1 getPortion()

```
int SideProduct::getPortion ( )
```

Get product portion.

Returns

int portion.

The documentation for this class was generated from the following file:

- SideProduct.h
